Fig. 1 has been amended to remove the occurrences of reference numerals 13 and 14 that were objected to by the Examiner, as required by the Examiner.

Submitted herewith are a corrected sheet of formal drawing for Fig. 1 which incorporates the amendments and an annotated sheet showing the changes made thereto. No new matter has been added.

The amendments to Fig. 1 in this Amendment under 37 CFR 1.312 are necessary for the proper disclosure and understanding of the present invention, and to comply with the requirement made by the Examiner in the Notice of Allowance. The amendments were not presented earlier because the errors corrected were first pointed out by the Examiner in the Notice of Allowance.

The amendments to the drawings are minor and do not affect the scope of the claims. Accordingly, it is respectfully submitted that no new search or examination is required, and that the amendments do not require any substantial amount of additional work on the part of the USPTO.

It is respectfully submitted, moreover, that the scope of the allowed claims is unchanged and that the claims remain in condition for allowance, and it is respectfully requested that this Amendment under 37 CFR 1.312 be approved and entered.
